Pedicures

A pedicure can sometimes be the tonic one needs!

A regular pedicure keeps nails tidy and improves their appearance, the skin is cared for and high quality products are used to promote strength and growth of the nails.

So often we abuse and neglect our feet so every once in a while they deserve a good pampering. The combination of these treatments is ideal to help you feel better about yourself.

It starts with a nail shape, warm soak, cuticle tidy followed by a scrub and finally total relaxation and enjoy the experience of the burning aromatherapy oils as your feet and lower legs are re-hydrated with a relaxing massage.
