

Pet Minding

Totally Tracey pet minding service offers an alternative to kennels and catteries when you go away for short or long periods of time for those times when you need to be away from home and are unable to take your pet with you.

Most pets prefer the comfort and security of their own familiar environment when you are on holidays. We at Totally Tracey will ensure that your pet is nurtured and loved while you are away by visiting them on a daily basis taking your dog for a walk with a small group of other dogs, feeding him/her on our return, feeding your cat, fish etc., refreshing water bowls.

If required, we will administer medication, collect mail, turn lights on and off, and put your rubbish out and water plants.

If you do not like leaving your dog at home alone I do offer for your dog to stay at my premises as long as they are house trained, do not bark excessively, dig holes and like other dogs.

To really get to know your pet we offer a free initial consultation to establish your pets care requirements. We conduct an extensive initial screening where you will be asked to fill out an information form that can be down loaded or filled out online that asks about current medications, preferred Vet, dietary needs, exercise needs, mobility requirements, a list of contacts, safety requirements.

This will enable us to make sure that your dog is compatible with the type of services we provide. This also gives you and your pet the chance to meet us so you can be sure that you want to hire us. When we've all agreed to the best type of care, we create a file for you and your pet, sign an agreement, and collect any keys required and a take a 50% deposit. The balance of the fee is payable when the 1st visit starts.

We also offer text updates so you can enjoy your time away knowing that your pets are being cared for with total loving care.
