### Surrendering Your Cavalier King Charles Spaniel

- A **"NOT GUILTY"** way of finding your animal a new home.
- Your pet will **SURVIVE** to see a loving new home!

If you are in a situation where you can no longer keep your pet....then you should be so happy to have found this Cavalier King Charles Spaniel.

Surrendering an animal does not have to be so painful. You have found an option that you may not have thought existed. We are here to give your pet the best possible home that it truly deserves.

Sometimes situations arise that you may not have been prepared for. Surrendering your pet may have never entered your mind...until now. Things happen in life that we can't always prevent & you are forced to give up a part of your family. It's sad, but it's also reality.

Are you moving into a home that does not allow pets....or do you have to downsize to a place that would not be fair to keep your Cavalier King Charles Spaniel? Perhaps you are starting a new family and are worried how your pet will react...this can be putting your family at risk when there is a jealous pet involved. Your pet may just be causing you some hassle that you can no longer cope with...what ever the reason, I can help.

Informing me of your animal's behavior can really help me determine the best possible home for your pet. Any behavioral issues maybe rectified through training. We believe that the animals deserve a chance and can find their perfect home through our experienced screening & assessments.

So please call me or email your details so I can help you.
