

About Reiki Distance Healing

Reiki distance (or remote or absentee) healing is when a Reiki practitioner sends healing energy towards an individual, group, event, pet, or situation in the past, present or future. Reiki energy works to produce the highest results for the highest good for all involved, and will never override a person's free will, nor cause harm. The only requirement for distance treatments is permission to have this energy flow to you and have a sincere willingness to receive and benefit from this energy. To receive a distance healing you do not have to be in a meditative state but it is recommended that you set aside quiet time during the time the energy is being sent.

Many benefits have been experienced by those who have received Reiki treatments.

The real benefits of receiving a Reiki session through Distance Healing are that:

- Results can often be far quicker than hands-on treatment
- You don't have to go anywhere to receive Reiki
- Reiki Distance Healing can reach all parts of the world – quickly and easily
- No one has to know that you are receiving Reiki sessions
- Your privacy is always maintained
- Sessions are very affordable
- You don't need to be ill to benefit from Reiki Distance Healing - regular sessions can help keep your body, mind and spirit in harmony.

Reiki knows no boundaries or barriers. As a suitably attuned Reiki Master practitioner I can send the wonderful healing properties of Reiki to anyone or anything, anyway in the world at any time.

It does not matter that I have never met the receiver or that I don't even know what the receiver looks like.

Distance no object

Using the Reiki symbols and mantras taught by my Reiki Master Teacher I am able to send Reiki to another room, another City or another Country.

The distant Reiki session is just as strong, if not stronger, than a 'hands on' Reiki session. The effects can be instant.

By using Reiki in this way any number of people, animals or events can receive the self-healing benefits of Reiki simultaneously. Far from drawing on my own energies I act as a channel of the energy. It is like me drawing the life force energy that is all around us into my body, which I then channel to the receiver.

"You are not drawing any of my own energy.
